DERMALOGICA FACIALS

At eclipse hair & beauty we have dedicated therapists who have trained at the dermal institute using dermalogica products and face mapping skin analysis, we specialise in treatments which are customised to your skin needs. All dermalogica products are free from artificial colours, synthetic fragrances, s.d. alcohol, lanoline and mineral oil.

Based on your consultation your treatment may include a combination of some of the following :

- Face mapping
- Deep cleansing
- Exfoliation
- Extraction
- Steam
- Treatment mask

FACE MAPPING

Developed by the international dermal institute, face mapping takes skin analysis one step further. Once in the treatment room, rather than analysing the skin in general terms your therapist divides your face into fourteen zones each with its own set of unique concerns. This inch by inch analysis will then assist in your treatment and home care prescription.

DERMALOGICA THERMAL BODY TREATMENTS

BODY MAPPING

Body mapping is a thorough diagnosis of the skin and extension of dermalogica's unique face mapping analysis. The body is divided into 14 zones, front and back, to collect two kinds of information: body considerations and skin considerations, to better tailor the body treatment to your individual needs.

BODY FOLIATION THERAPY

Give your body the customised exfoliation it needs coupled with the warming sensation it craves! A gentle oatmeal and rice bran powder activates to create a gentle yet effective exfoliant that whisks away dead skin cells, brightens skin and helps reduce the appearance of sun spots and hyper pigmentation. Skin is smoother and prepped for maximum absorption of rich, smoothing botanical oils. You'll leave this therapy with silky, healthier skin. Recommender for all skin conditions.
